## 4. FIRST AID AND MEASURES

### 4.1 Description of Necessary First Aid Measures

- Ingestion:** Immediately remove product from the mouth and rinse mouth out with plenty of water. Then provide water slowly and as much as casualty can comfortably drink. If discomfort persists or symptoms develop, seek medical attention.
- Eye:** Immediately hold the eyes open and wash with fresh running water. Ensure complete irrigation of the eye by keeping the eyelids apart and away from the eye and moving the eyelids by occasionally lifting the upper and lower lids. If pain persists or recurs, seek medical attention.
- Skin:** Not applicable for normal use. If skin reaction or irritation occurs, discontinue use and seek medical attention.
- Inhalation:** If fumes or combustion products are inhaled, remove to fresh air.

### 4.2 Medical Attention and Special Treatment

**First Aid Facilities:** No special facilities required.

**Comments:** Treat according to person's condition and specifics of exposure.

**Advice to Doctor:** Treat symptomatically.

## 5. FIRE-FIGHTING MEASURES

### 5.1 Suitable Extinguishing Equipment:

Carbon dioxide, dry chemical powder, water spray or fog and foam may be used as extinguishing media.

### 5.2 Specific Hazards Arising From the Chemical:

Non-flammable and on combustion, may emit toxic fumes of carbon monoxide (CO). May also emit acrid smoke.

### 5.3 Special Protective Equipment and Precautions For Fire Fighters:

Determine the need to evacuate or isolate the area according to your local emergency plan. Fire fighters should wear self-contained breathing apparatus to minimise risk of exposure to vapour or products of combustion.

## 6. ACCIDENTAL RELEASE MEASURES

### 6.1 Personal Precautions, Protective Equipment and Emergency Procedures:

Transfer material to a suitable labelled container for recycling or disposal.

### 6.2 Environmental Precautions:

Do not allow large quantities to enter drains or surface waters.

### 6.2 Methods and Materials for Containment and Clean Up:

In case of gross spillage wear protective equipment to prevent eye contact. Bund area using dry sand or other inert materials to prevent run off into drains and waterways. Pump or scoop any free liquid into an appropriate container for disposal. Clean up spill area with absorbent dry sand, vermiculite or other inert material. Collect and seal in properly labelled container(s) for disposal as per local regulations. Do not flush to drains, waterways or sewers.

## 7. HANDLING AND STORAGE

### 7.1 Precautions for Safe Handling:

Do not take internally. Exercise good industrial hygiene practice. Wash after handling, especially before eating, drinking or smoking.

### 7.2 Conditions for Safe Storage, Including Any Incompatibilities:

Store in a cool, dry area, away from heat and out of direct sunlight. Keep in an original container and away from oxidising agents and foodstuff containers.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

**8.1 Exposure Guidelines:** No exposure standards are available for this product.

**8.2 Biological Limit Values:** Not known.

**8.3 Engineering Controls:** Maintain adequate ventilation at all times. In most circumstances natural ventilation systems are adequate.

### 8.4 Personal Protection Equipment:

**Eye/Face Protection:** Safety glasses with side shields, goggles or full-face shield as appropriate are recommended. Final choice of appropriate eye/face protection will vary according to individual circumstances i.e. methods of handling or engineering controls and according to risk assessments undertaken. Eye protection should conform to Australian/New Zealand Standard AS/NZS 1337

### 8.5 Respiratory Protection:

Avoid breathing of vapours/mists; ensure adequate ventilation. Respiration is generally unnecessary; unless working with spray applying (airbrush equipment or some other form of atomizing spray equipment). Where breathing apparatus is required, use either respirator with organic/ammonia cartridge, or a Self-Contained Breathing Apparatus (SCBA) with positive air supply. All the breathing apparatus used to be complied with AS/NZS 1715/1716.
